## A FARMERS' STRIKE?

Low rumblings of discontent were heard at a recent U. F. A. meeting in Rumbey when a resolution was passed by the farmers that no wheat be sown in 1933.

While such action may not be the right method of solving today's problem in western agriculture, the resolution gives some idea of the growing discontent among the agricultural classes.

The wheat grower is selling his product at less than cost. He cannot pay his operating expenses and enjoy a decent living. He is working for nothing. Then why work?

Such drastic action would solve the wheat surplus problem mostly if it were followed in all countries, and this is most improbable. And what a cost it would be! Imagine the confusion, the complete disruption of the railway and shipping interests which derive a great deal of their revenue from wheat hauling; and the milling and other dependent industries brought to a complete standstill.

We don't blame the farmer for protesting against present conditions, but improvement must be brought about by some less drastic action than that of completely blotting out a 1933 wheat crop.

## ARMISTICE DAY

Fourteen years have passed since the armistice was signed and hostilities in the Great War ceased. Today the memory of it is still fresh in the minds of those who fought in the muck and mire of Flanders fields. And Armistice Day, or Remembrance Day, as it is now termed, recalls to the whole world remembrance of that memorable day, Nov. 11, 1918, when the titanic struggle in Europe came to a close and peace returned to a war-weary world, a world staggering under the terrific blows of a world stricken with the sorrow and suffering brought on by the bloody struggle, a world torn by strife and sick with the horror of carnage.

The signing of the armistice was one of the most important events to take place in recent history, and it is fitting that it should be observed every year. It is fitting that we should pay homage to those who fought, who shed their blood and gave their lives for their country.

## FARMERS SEEK ADJUSTMENT

The question of land contracts will be one of the important problems to come before the farmers of the irrigation block at a U. F. A. meeting in Brooks Saturday, Nov. 12. Like his brother on the dry land, the irrigation farmer has been hard hit by the depression. Unable to pay expenses due to the extremely low prices of far produce, the irrigation farmer has had to pay against it. He has water rental, taxes, and interest to pay on high priced land. He cannot do it today, and he finds himself carrying an ever increasing burden which will eventually crush him under its weight.

The irrigation farmer wants relief from this burden of debt. He wants adjustments made in his land values and interest so that he can at least keep from going further into debt and at the same time make a decent living for himself and his family.

This is one of the problems which will be discussed at the Brooks meeting on Saturday. It is a serious problem, and one that must be solved if the irrigation block is to be a success.

## A CHANGE FOR U. S.

The people of the United States have elected a new president. The Republicans have been ousted and the Democrats ascend to power.

The results of the election were not unexpected. Weeks before the election Democratic victory was confidently forecast, and shortly before polling day it became certain.

The victory of Roosevelt and his Democratic colleagues is largely due to present-day economic conditions. A feeling of general dissatisfaction with their lot prevails among the people of all countries. Many of them have had no employment for months even years. They are restless and discontented. They want a change. When election day comes around they vote out the old government and replace it with a new one. That has been the experience of Canada, England, Australia, and other countries.

Present-day economic conditions are a big handicap to any government seeking re-election. What government today can point to a record of progress and achievement? The best it can say is, "It might have been worse." It is indeed a strong government today which can hold the confidence of the people on election day.

Although the people of the United States have elected a new president and a new government, it will be six months before the old president and the old government step aside to make way for the new. The inadequacy of the American "lame duck" constitution is quite obvious in this swift moving age. It is just a question of how long the people will tolerate such a system.

The Yampas of Tierra de Fuego, according to a travel note, have a rich vocabulary of 30,000 words but cannot count over five. Just the change, we imagine, to make four-hour speeches at the office.

—Calgary Alberta.

Out of the crying pan into the fire! Canadian radio fans are now treated from United States presidential election but are again exposed to the horrible crooning pest.

—Calgary Herald.

## FARMERS' STRIKE ADVOCATED

RUMSEY, Nov. 5.—Demands for a nation-wide strike of Canadian farmers to take place before the 1933 seedling season were made at a mass meeting of wheat growers in the U.F.A. hall here. Refusal to seed wheat in the coming season was advocated and a resolution agreeing to tie up seedling in the district was unanimously approved. More than 50 per cent of local growers were present at the meeting which demanded government guarantees, to cover the cost of production of 1933 crops. Farmers in Alberta, Saskatchewan, and Manitoba will be advised of the action taken and invited to co-operate.

The meeting displayed an angry mood and the chairman, John McNaughton, had considerable difficulty in maintaining order. Speakers claimed that the position of farmers in the west was rapidly becoming desperate. In a further resolution, unanimously carried, the federal government was condemned for its rejection of G. G. Cook's motion to appoint a Canadian dollar with the pound sterling, and it was asked that the whole question be considered.

## BELIEVE CANADIAN PORTS CAN HANDLE

MONTREAL, Nov. 7.—Elevators, shipping services, harbors, and railways in Canada have abundant facilities available to handle all the grain traffic that is likely to come to the all-Canadian route if the most optimistic Canadian interpretation of the Canadian grain preference proves to be accurate. It was learned this morning that, in fact, all the grain at present shipped to Great Britain via the U.S.A. is transferred to the Canadian grain preference route, there is no lack of accommodation and facilities to handle it. It is suggested that the increase traffic this would give to the Canadian railways, might result in an early reopening of railway shipments in the Dominion on something more closely approximating a full-time basis.

## CANCER IS SELDOM HOPELESS

OTTAWA, Nov. 5.—Cancer never begins as cancer, Dr. Joseph C. Bloodgood, internationally noted cancer research worker of Johns Hopkins University, Baltimore, told the Ottawa Medical Chiropractic Society here today. It begins as a single spot, he said, "and as normal cells of that spot are changed to abnormal cells, which are not cancer cells." Chronic irritation, injury of pre-existing lumps such as warts or moles, and unhealed wounds anywhere, are the sites in which cancer develops, the doctor continued. A semi-annual examination of mothers, he said, would permit detection of spots which are cancer but which may become cancer or are the earliest stages of cancer. Radium treatment, should then be used to cure at least 50 per cent of the cases.

## RANCHERS DO NOT FAVOR CHANGE

CALGARY, Nov. 8.—Protesting to Premier J. E. Brownlie against improvement districts being merged with municipal districts, ranchers and farmers in the foothills country are signing petitions, in large numbers. These petitions express determined opposition to any change in the form of administration. They point out that large tracts of land in the improvement districts are covered with either timber or brush and that the lands in these districts are almost exclusively grazing lands, wholly unfit for grain farming except feed crops, and that, as the settlement is sparse, these districts are totally unsuited to the municipal form of government. The petitioners claim that the existing system meets the needs satisfactorily.

## JAPAN SAYS CHINA SEEKS PACT WITH RUSSIA

TOKIO, Nov. 4.—Resumption of diplomatic relations between China and Russia were recently proposed by the Chinese, the Japanese foreign office said today. Foreign office spokesmen said that upon inquiry Riji Amoh, Japanese charge d'affaires in Moscow, had been told by the Soviet Foreign Commissariat that W. W. Yen, Chinese delegate at Geneva, had approached Maxim Litvinov, the Soviet representative in Geneva, on the subject. The official Tokyo position is that Japan is in no hurry to conclude a non-aggression pact with Russia but to persuade Moscow to recognize Manchukuo.

## PRISON RIOT IN QUEBEC

ST. VINCENT DE PAUL, Quebec, Nov. 4.—The flash of a knife was the spark that touched off a short but fierce riot in St. Vincent de Paul penitentiary here today when rebellious convicts suddenly turned on their guards and set fire to the prison workshops.

Three guards were stabbed and beaten by five prisoners and severely scorched by the fire that raged in the workshops a moment later. A glum negro named Crossley, working in the tailor shop, seized a knife and suddenly turning on a guard stabbed him. At the pre-arranged signal four other prisoners leaped on the other two guards. A terrific fight ensued and in the mix-up one of the prisoners set fire to the workshop. The fighting continued until more guards arrived and overpowered the prisoners. The flames destroyed the workshop and it was some time before the conflagration subsided. A thorough investigation is to be made into the cause of the riot.

## GOVERNMENT REVENUES SHOW BIG DROP

OTTAWA, Nov. 7.—In the interval between coming adjournment of parliament and the resumption, probably in February, the government will have to give a particular and close consideration to the question of balancing the budget. When the last budget speech was delivered, the Canadian National Railways account was set aside. Having done this, it was estimated that the new sources of revenue would produce sufficient to equate income and expenses. In experience, however, has failed to work out. At the end of the six months of the fiscal year the revenue, were some \$25,000,000 below the estimates. It is, of course, possible to locate and exploit new sources of revenue, but these are highly speculative where the sources, previously available, have proved much less productive than was forecast. The situation is recognized to call for some deep thinking and calculation. Nearly \$244,000,000 of the annual expenditure is practically inescapable. Of this, roughly, \$132,000,000 is applied to interest; \$40,000,000 to war pensions, and \$2,000,000 to provincial subsidies. In addition are such things as old age pensions. About all the remaining outlay which may possibly be slashed are the cost of civil government and departmental expenditures, on public works. In the former case there has been a cut of 10 per cent in salaries already, while in public works the expenditures are at the minimum.

## Looking Better

The dairy industry in western Canada is on the upturn. Prices have improved considerably during the past few months, and indications point to a further improvement.

Are you ready to increase your cream output and take advantage of these improved conditions?

We can help you get the most from your cream by giving you good service, market prices, and accurate weight and grade.

The Price  
of Safety  
Is Eternal Vigilance

Not only must the driver of an automobile drive with great care if he wishes to avoid accident, but his car must be in perfect condition so that it is at all times under his control. Neglected brakes which fail to hold or which cause the car to swing sideways are the cause of many accidents. How about the brakes on your car? Worn tires, worn shackles bolts and spindles, and other worn parts also contribute their share to the danger element.

Have your car thoroughly inspected by an experienced mechanic and you will feel safer and be safer.

## THE PICTURES

While many persons have lived in hopes of some day making a trip to the Grand Canyon of the Colorado may have saved many hard earned dollars with which to realize their dreams. George O'Brien and "The Picture" recently paid a three weeks' visit to this wonder spot of the world and were paid well for making the trip.

For a scene some wonderful as its towering cliffs, its yawning chasms and brilliant colorings serve as the setting for the Fox production, "The Rainbow Trail," the dramatization of Dana Cory's famous novel of the same name, which comes to the Orpheum Theatre on Thursday, Friday, and Saturday of this week, Nov. 10, 11, and 12.

George O'Brien plays the leading masculine role in this great drama of the west and, pretty blonde, and petite Cecilia Parker plays opposite him.

In "The Rainbow Trail" O'Brien impersonates the part of a lone cowboy who, single handed, invades the stronghold of a band of desperadoes in his attempt to rescue three people from a hidden and impenetrable valley in which they have sealed themselves years before.

The picture is said to contain some of the finest scenic shots and most effects ever captured for the screen, filmed as it was in the most costly and least frequented sections of the Grand Canyon.

The story is filled with swift action and daring adventure, and recalls the days of the old west. It is a typical Gane Grey story told in picture form with all the thrills it is possible to pack into a screen drama of the forest deep in a most unusual style.

The greatest show on earth is coming Thursday, Friday, and Saturday next week, Nov. 11, 12 and 13 it's "Palmy Days," starring Eddie Cantor, the famous Broadway comedian.

He will keep you an ecstasy of merriment. You'll howl at Eddie Cantor, at a great head bop, holding a side splitting seance, roar at him as the efficiency expert a doughnut factory.

A company of the world's most talented stars. Here is the last word in superlative entertainment.

**DEMOCRATS WIN U. S. ELECTION**—ROOSEVELT IS NEW PRESIDENT

The Democratic party swept the United States in the elections on Tuesday. Leading his party to victory, Franklin D. Roosevelt won an estimated number, made at noon Wednesday, of 477 electoral votes, while Hoover had only 59. It requires only 266 to elect a president.

The vote after the new Democratic president was a landslide. As a result of the election the Democrats will assume complete control of the next congress, with an indicated majority of 100 representatives, and an assurance of 51 out of the 96 seats in the senate.

**HEAVY MAJORITIES AGAINST PROHIBITION**

WASHINGTON, Nov. 9.—A new United States congress with substantial wet gains was indicated today. Anti-prohibition measures also were rolling up big majorities in the state legislatures.

With a large membership in both houses of congress still to be decided, as to their present attitude on the 15-year-old prohibition laws, that returns will have to be recorded before the battling wet and dry organizations can say whether dry legislation will turn up for modification of the Volstead Act, or whether the required two thirds will submit a repeal or revision amendment of the constitution.

Canadian scientists of the department of mines, Ottawa, have succeeded in simplifying the process for the extraction of radium from pitchblende ore.

**KNOX PRESBYTERIAN CHURCH**—Rev. P. C. McCrae, Minister of the Church Where Everybody Feels at Home.

Sunday, Nov. 13—11 a.m.—Sunday school and Bible Class. We have a place for you in our school of Religion.

11:30 a.m.—Worship subject, "Things We Dare to Hope." Everybody Welcome.

## LOCAL NOTES

Mrs. W. P. Keith and baby boy are visiting in Calgary.

Mr. and Mrs. A. McKee, Mr. and Mrs. Chas. McCreary, Mrs. J. D. Scott, and Mrs. A. E. Flanagan were visiting in the city last week.

The Harry Leader program in Calgary last week.

The entire teaching staff of the Bassano school went to Calgary to attend the teachers' convention Wednesday and Thursday of this week.

School closed for the week on Tuesday afternoon.

Eighteen Masons from Brooks, including Dr. C. G. Archibald D.D.M., F. Hughes, and D. Mandan attended the Masonic meeting in the city last Tuesday evening.

D. Nashit, Mr. Swan, manager of T. Eaton's store, Calgary, and several other Calgary visitors journeyed down from the foothills city Tuesday evening to attend the lodge meeting of the A.P. and A.M.

The Women's Institute will hold a while drive and dance in the Masonic hall Friday evening, Dec. 2. A quilt will be given away to the holder of the lucky ticket. Admission 50c including supper.

The district court will be held at the Court House, Bassano, Thursday, Nov. 17. His Honor Judge W. A. Macdonald, of Calgary, will preside.

At Flanagan is in Husar helping on Corrie & Milroy's store.

The W. T. held a well patronized tea and sale last Saturday afternoon.

David Seaman, young Duchesne is a patient in the Bassano hospital. He was injured in an accident.

Little Jenny Lind of Brooks, is a patient in the local hospital, recovering after a recent operation for appendicitis.

The farm of the Duchesne district passed through Bassano last Monday on their way to the Peace River country. Some had already landed in the northern area, and the others are going up to look around there. They all journeyed with Martin Reibel in his truck.

Mr. and Mrs. M. D. Macdonald left on Tuesday for their new home in Calgary.

Miss Mary Scheer, of Strathmore, visited in Bassano over the week-end with her sister, Miss Grace Scheer.

Tommy Oiler, well known character in Bassano for many years, recently left for the Old Country.

The Ladies' Aid of Knox Church will hold their annual chicken supper on Tuesday, Nov. 15 in the Oddfellows' Hall. Some of the best cooks in Bassano will contribute to the menu of this supper, and a tasty meal is assured everyone who attends.

It will also be on sale in the hall.

Mrs. Roy Chase is a patient in the local hospital.

Iris Young has finished up work on the Mayville farm and came to town last Thursday.

Fred Shadrak, of Duchesne, was in town Monday for medical treatment.

The Ladies' Aid of Knox Church, passed through Bassano last Monday on his way to Calgary. Mr. Wenger said, "Bassano was all cleaned up in the Duchesne district."

## BIRTHS

The following births have been recorded at the Bassano Hospital: A son, to Mr. and Mrs. Winch, of Bonanza, on Nov. 7.

A son, to Mr. and Mrs. Geo. Allen of Chazy, on Nov. 6.

A son, to Mr. and Mrs. Campbell, of Gleichen, on Nov. 6.

**HAND SERIOUSLY INJURED**—Jack Garrett, of Duchesne, suffered a serious injury to his hand when it became caught in a power feed machine.

**BASSANO MAIL TAKING WHEAT FOR SUBSCRIPTIONS**

To assist the rural readers of the paper, The Bassano Mail is this fall taking wheat in exchange for subscription to the paper. Wheat is accepted at a value of 60 cents a bushel. Four bushels of wheat No. 1, No. 2, or No. 3 Northern, are accepted for one year's subscription to the paper (value \$2.00). Wheat is to be delivered to any elevator on graded storage ticket, and this ticket, made out to "The Bassano Mail," will be accepted in payment for subscription.

**FARMERS WILL DISCUSS LAND CONTRACTS AND WHEAT MONOPOLY**—Two subjects of vital interest will be discussed at a U. P. A. meeting to be held in Brooks at 1 p.m. Saturday, Nov. 12. These subjects concern the C. P. R. land contracts and a federal loan on wheat.

"Widespread dissatisfaction" with the existing land contracts have been expressed and it is expected a thorough discussion of this subject will take place. Great interest is being shown in the forthcoming meeting and a large attendance is anticipated.
